CENTRAL UNITED CHURCH BLAIRMORE

Rev. James McKelvey, Minister

Services Sunday next:
11.00 a.m., Senior school.
2.00 p.m., Junior school.
7.30 p.m., Public Worship.

ST. LUKE'S CHURCH, BLAIRMORE (Anglican)

Rector: Rev. Laurence S. Mann

Services Sunday next—
Church School 12.15 p.m.
7.30 p.m., Evening service.

SALVATION ARMY, COLEMAN

Captain and Mrs. T. Smith,
Officers in charge.

Sunday services:

11 a.m., Holiness meeting.
2.30 p.m., Directory class.
8 p.m., Sunday school.
7.30 p.m., Salvation meeting.

HILLCREST UNITED CHURCH:

Services every Sunday at 8 p.m.

BELLEVUE UNITED CHURCH:

Services at 7.30 p.m. every Sunday.

COWLEY UNITED CHURCH:

Services alternate Sunday mornings at 11 o'clock.

Rev. W. H. IRWIN, Minister.

BELLEVUE BAPTIST CHURCH

Pastor: Rev. Fred Bennett

Sunday school 10 a.m.
Morning worship 11 a.m.
Evening service 7.30 p.m.
Midweek meeting:
Wednesday 7.30 p.m.
A cordial welcome awaits you.

Douglas Lord is visiting relatives in town while on pre-discharge leave from the navy.

Most powerful weapon in the fight against tuberculosis is the X-ray. Christmas Seal Orders are still needed to buy more Moxie X-ray units. If you haven't got yours, do so now.

COOKING EXPERT

EUSTELLA LANGDON, CBC home cooking consultant, who will conduct the 1947 edition of "Cooking School on the Air." Mrs. Langdon's weekly radio recipes for good food and tasty dishes will be heard on Mondays at 3.48 pm over the CBC Trans-Canada network.

PACKED 2 WAYS.

Choose Maxwell House in either Super-Vacuum Tin (Drip or Regular Grind) or Glassine-Lined Bag (All Purpose Grind). It's the same superb coffee blend.

TEACHERS PRESENT

THEIR REASONS

As this present wage dispute of Coleman teachers, now in the hands of a board of arbitration, will have a counterpoint effect locally, we reprint an item appearing in The Coleman Journal by Horace Allen of the teaching staff and presenting the teachers' reasons:

Editor's Note: Since the rate-payers will have to pay the bill The Journal believes that all rate-payers are vitally interested in the present wage dispute between the teachers and school board. As a result it has been successfully prevailed upon the teachers to submit their side of the argument to the rate-payers for their enlightenment.

A conciliator, K. A. Pugh, of Edmonton, has failed to settle the dispute and it has now gone into arbitration. Following is the teachers' statement:

"Arbitration in the salary dispute between the Coleman School Board and the teachers is expected soon. This arbitration was brought about by the teachers' unanimous decision to refuse the school board's offer. Herewith is a copy of the letter sent to Mr. K. A. Pugh, secretary of the Department of Trade & Industry, stating the teachers' reasons for rejecting the Board's offer.

Mr. K. Pugh, Department of Trade and Industry, Edmonton, Alberta.

Dear Sir,
In reply to your request to have the teachers of the Coleman Sub-local A.T.A. outline the reasons for rejecting the schedule of salaries offered by the school board we herewith submit the following.

A. In General:

1. The schedule is too low in respect of minimum and maximum salaries.

In the light of present cost of living indices salaries received on this scale would not provide purchasing power equivalent to that in pre-war years.

2. During pre-war years salaries offered were inconsistent with the requirements of the profession. Teachers require and many have training and qualifications equal to those in other professions yet the highest possible salary on any scale was far out of line with the earnings of other professions. The present schedule offers an even greater discrepancy in this way.

3. During the past war years when cost of living was rising the teachers were denied the full benefits of cost of living bonuses received by industrial workers. Now that war conditions are alleviated some of this should be returned to the teachers either in the form of higher salaries or as a bonus.

B. In Particular:

1. The date of effect of the schedule should be September 1st, 1946. This schedule is barely almost entirely on a schedule offered by our Sub-local in April. This in turn had been based on one which was in effect at that time. It was pointed out then that this was a minimum requirement for 1946-47 and that there was no way of knowing then whether rising prices and wages would necessitate new requests for 1947-48. To adopt this scale now even retroactive to September would merely lead to new negotiations before the end of the present school year.

2. The board has recognized the importance of past experience in improving a teacher's ability to offer better service. The increment for this experience however should be paid for each year of experience prior to the date of his schedule not as is now stated prior to experience in Coleman.

3. A teacher's service to the community depends as much on his or her training as they do on experience. This fact is only partially recognized in this schedule in the offer of \$200. per annum for a degree.

If requires, however, three years training beyond the Normal teaching certificate to gain a degree. Each year of this training is the full equivalent of the Normal School course and provides a teacher with a background which is brought to bear on the normal work of the school. This added serv-

ice should be paid for as it is being rendered by those who have taken this training. The modest request for \$15 per credit or \$75 per complete year is sufficiently low that it hardly covers interest on the money investment required to get this training.

4. The salary spread from minimum to maximum in the high school is insufficient. It does not give the group the same credit for experience as allowed in the other division of the school.

5. The clause preventing high school teachers from attaining their maximum for three years effects only two of the staff members. It is therefore a discrimination against these teachers.

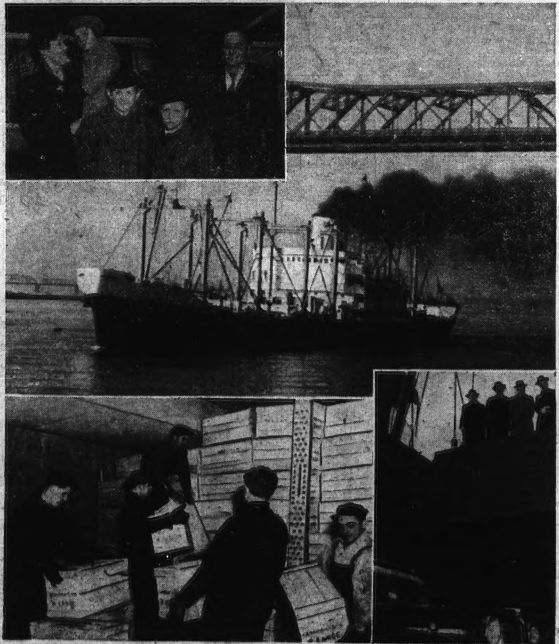

6. The clause (5) "Principal of Coleman school." By the proposal a number of teachers on the Elementary staff would receive \$1800; this would be the same as the Principal of Coleman school and therefore there is no extra remuneration for the added responsibility of the principalship.

7. It should be definitely stated that Temporary Teachers would receive payment at the same rate as permanent teachers, with full recognition for past experience.

8. No mention has been made about payment of substitute teachers. The rate is fixed by the board at \$6.00 per day is out of keeping with present salary trends.

In conclusion, Sir, the Coleman Sub-local supports the contention that so long as salaries of teachers are maintained at a level where it is not profitable to invest funds and effort to gain better training then the educational field will never have the personnel needed to improve our standards. These will remain at the present low ebb until the next War makes the public again conscious of the need of training the younger generation to fit into a "One World" picture. Apparently, the last War and the need to understand the United Nations picture has made the public conscious of this now as witness most newspapers and periodicals. Until something concrete is done in terms of increased salaries and qualifications in that order this flurry will remain just talk.

BUSY BEAVERS: Back on the water again, the growing Canadian Pacific Beaver fleet of fast cargo ships carried some 200,000 tons of goods and other Canadian products to Britain during the Montreal shipping season. Above, the heavily-laden Beaver

NEW RECTOR FOR ANGLICAN CHURCHES

Rev. W. Grainger, rector for the past few months at St. Luke's, Blairmore and St. Alban's, Coleman, Anglican churches will leave Coleman on January 14th for an extended sick leave. He will be succeeded by Rev. Laurence S. Mann, who arrived from England on January 9th.

The services at St. Luke's church next Sunday, January 12th, will be at 7.30 p.m.

DAUGHTER FINDS BODY OF FATHER

Jacob Weber, 78, a well-known old-timer of the Crow's Nest Pass, died at his home in Blairmore on Tuesday afternoon. The late Mr. Weber was born in Czechoslovakia and had resided in Blairmore and Frank for the past 43 years.

His daughter, Mrs. Mary Goss, returned to the family home around 4:30 o'clock Tuesday afternoon from a visit and found the body of her father hanging from an improvised rope in the clothes closet of the house. She immediately notified the police who cut the body down and upon the arrival of medical aid, life was pronounced extinct. No inquest will be held.

Mrs. Weber was predeceased by her wife in 1932 and is survived by three daughters and two sons. The funeral will be held from the home of G. Goss in Blairmore Saturday afternoon with H. Culham undertaking services in charge of funeral arrangements, and Rev. J. McKelvey of the United Church officiating.

PASSES AT COAST

William Taylor, 84, pioneer homesteader in Alberta, and father of Rev. Roy Taylor of Edmonton and formerly of Lethbridge and other southern Alberta points, died in Vancouver on Tuesday.

William Chappell

of Blairmore, who has been appointed by Coleman School Board as representative on the Arbitration Board set-up to referee the wage dispute as present prevailing between the school board and teaching staff.

Mr. Chappell is a very well known in provincial school circles and has been possibly the most energetic leader in Pass community effort over a long period of years. His reputation of fair dealing in all matters makes him an ideal choice as a member of the arbitration board.

The teaching staff has appointed Mr. McKim Ross, of Edmonton, as its representative. Mr. Ross is not known locally. He is a school teacher who left the profession to enter His Majesty's armed forces. Upon his discharge he decided to enter Alberta university to advance his education and at the present moment he is a student at the university.

Messrs. Chappell and Ross will now get together to determine who the third man on the Arbitration Board will be. It is expected that the Board will sit at Coleman as it is customary to sit at the point where the dispute arises.

Mr. Taylor came to Alberta from Winnipeg in 1881 and homesteaded at Sunnyside, about 15 miles from Edmonton. He moved to Peace River in 1898 and returned to the Surgeon Valley district in 1902. He is survived by eight sons and daughters.

Funeral services were held in Vancouver.

COWLEY HAPPENINGS

The Village school reopened on Monday of this week following the Yuletide holidays.

Mr. and Mrs. F. A. Tustian sr. paid a visit to their daughter and son-in-law, Mr. and Mrs. D. M. Melissac, and family in Calgary, during the holiday season.

Jimmie Gunn, who was married on December 18, accompanied by his bride has returned to Blairmore where he is employed, following a visit at the home of his parents, Mr. and Mrs. H. Gunn, during the Christmas holiday season.

John Perceval returned on Sunday to Tillie where he will resume his duties as principal of a four room school.

William William Cochrane has returned from a visit with friends in Calgary.

Following a visit over the Yuletide season at the parental home of Mr. and Mrs. Albert Werds, Mr. and Mrs. Otto Werds returned to their home in Calgary on Sunday last.

Mrs. Carl Sapeta has returned home from Pincher Creek where she was a patient in St. Vincent's hospital for a few days.

Mrs. and Mrs. A. Cleland, Mr. and Mrs. Alma Poulsen and Mr. and Mrs. Liddle Bort are attending the Alberta Farmers Union convention which is being held in Edmonton this week, as delegates from this division.

W. E. Bent and his son Lawrence made a return trip to Calgary on Tuesday.

Mrs. Arthur Gray has returned home from a Calgary hospital, bringing a new infant daughter with her.

Mr. and Mrs. Alvin Murphy and small son Neil returned home on Monday from spending the Yuletide holidays with Mrs. Murphy's parents, Mr. and Mrs. C. W. Evans, at Athabasca. They made the round trip by car and reported good going both ways.

Mrs. Mace Thibert Passes

The community was shocked on hearing of the sudden death of Mrs. Mace Thibert in her 69th year at her home on December 31st. The deceased apparently in her usual healthy condition happily making preparations for the New Year's dinner the day before she died. The funeral took place on Saturday, January 4, at 11 a.m. from St. Joseph's church to the Cowley cemetery where interment was made. Rev. Fr. Volini performed the last rites. Floral tributes were beautiful. Pallbearers were: Mr. Hector Lemire, Mr. Maurice Lemire, Mr. Harry Gunn, Mr. Ted Jones, Mr. T. LaPointe and Mr. John Lemire. The late Mrs. Thibert was born at Berkenhire, Quebec, where she grew to womanhood. In 1903 she made a trip here to visit her sister, Mrs. Henry Lafontaine, with whom she lived until her marriage to M. Mace Thibert in 1904. To this union six children were born. Mrs. Thibert was predeceased several years by one daughter, Mrs. George Deane (Florence). Besides a husband she leaves to mourn her loss two sons, Joe and Willie here and three daughters, Mrs. Mackintosh (Clementine), of Macleod, Mrs. Wheeler (Nora), of Edmonton and Aida, also of Edmonton, and fourteen grandchildren.

The community joins in sympathy for the bereaved ones.

Mrs. E. Mirzan returned to her home in Lethbridge. She was guest of her son-in-law and daughter, Mr. and Mrs. R. Shaw.

Tuberculosis is caused by a germ, the tubercle bacillus, discovered in 1882 by Robert Koch. The germ is transmitted from one person to another. Often people who do not know they have the disease give it to members of their family or their associates at work.

WORLD HAPPENINGS
BRIEFLY TOLD

The steamship Royal Ulsterman is back on the Glasgow-Belfast route after six years' war service.

Because of staff shortages students at a new teachers' training college had to perform kitchen duties.

Trans-Pacific Air Service between Australia and Vancouver may soon go on a weekly basis, radio Australia reported.

The museum of the Public Record Office, where the Domesday Book is kept, has been reopened after the wartime shutdown.

Food imports to Germany from the United States during the last quarter fell almost 50 per cent, short of requirements for the United States occupation zone.

The bureau of labor statistics said the food bill of the average moderate-income city family with United States ties almost 4½ per cent, from October to mid-November.

Moscow radio said that Yugoslavia had demanded an allied purge of "Nazi elements" within the present government of Austria prior to conclusion of any peace treaty with that country.

World's oyster-opening title is claimed by Ernie Simpson, who is well known to patrons of London sea-food restaurants. He has opened 6,000 oysters and his average time is six a minute.

Newest Small Plane

Carries Four Passengers And Can Travel 150 Miles An Hour

A United Kingdom aircraft company has just produced a remarkable new aircraft. Known as the Gemini, it is a twin-motored machine designed for private owners and as an air taxi or ambulance. It is reported in the Empire Digest. It has ample room for four people and their luggage. The speed is one hundred and fifty miles per hour. The manufacturers claim that the Gemini is a good jump ahead of contemporary light aircraft, and London press correspondents who were present at a recent demonstration of the plane seem to agree with them. Ease of handling and remarkable freedom from noise and vibration are two qualities about which they are very enthusiastic. The outstanding feature of this twin-engine machine is, however, its wonderful one-engine performance. In the demonstration the pilot, flying one engine, is able to make steep turns and climbs with the machine under perfect control. It is this feature in particular which is expected to make Gemini one of the most popular machines for the private pilot, above all in the more difficult flying areas—i.e., mountainous or jungle regions.

ON INSTALLMENT PLAN

PRINCE RUPERT, B.C.—Twenty-four juveniles, including two girls, have 11 months to make good payment of \$800 for property damaged here last Halloween. The juveniles, chiefly high school students, were convicted in juvenile court and Judge W. D. Vance ordered them to pay the damage, each to contribute a share, and he put them on suspended sentence for 11 months. It was the worst Halloween damage in the history of the city.

Quinine was used in primitive family medicine chests for hundreds of years before being accepted in scientific pharmacopoeia.

V-2 Lights Desert

Scientist who helped develop the proximity fuse, Dr. L. J. Paddison, holds an army rifle-grenade with which man-made meteorites were shot from the German V-2 rocket sent skyward at White Sands, N.M., proving grounds.

When the German V-2 rocket streaked skyward in a night test at White Sands, N.M., flames from its jet engines lighted the desert for three miles and residents 150 miles away reported seeing a red glow in the sky. None of them saw with the naked eye "shooting stars" from explosives the rocket carried. These artificial meteorites were formed when a test of the explosives was made.

Natural Conditions

Air Found Best For Testing Out New Types Of Planes

A supply military spokesman said that Britain's newest aircraft, jet-propelled and otherwise, likely will be tested in Canada and other parts of the British commonwealth, and empire before final designs are fixed. Cold weather and other tests will be made in Canada where modern British machines including the jet motor have already been flown in the north under conditions of severe cold. Such tests have been made with the co-operation of Canadian authorities.

"We try to do as much as possible in wind tunnels but it has been found that tests under natural conditions in varying climates are helpful," the spokesman said.

Several revolutionary aircraft designs are being developed by Britain and it is anticipated that Canada probably will see them in action as soon as most British residents.

Australia has more species of ants than any other continent.

YOUR FEET NEED CARE AND EXERCISE

Take care of your feet because they are your means of getting around.

As a first-aid to tired feet, a foot-bath should be a must in before-bedtime. Warm water, plenty of soap, lather worked up with a hand brush, followed by a cold plunge or spray will remove the day's accumulation of dirt, perspiration and dead skin that forms on the feet.

Toenails should be brushed briskly and an orange-wood stick should be used on them. A wet pumice stone rubbed over the softened corns and callouses will insure comfort. A piece of molskin or a felt ring properly placed retards the regrowth of these annoying excrescences. Use of razor blades on the feet is always dangerous.

The following exercises, if performed exactly as outlined can be of great benefit in strengthening weakened muscles and in rejuvenating feet suffering from fatigue. Choose one or two which you can do comfortably and do them every morning first thing out of bed. Three minutes at most is all the time you need. At the start do each exercise five times. As your feet become more proficient increase the number of repetitions until you can comfortably do each exercise twenty-five times.

To Strengthen Foot and Leg Muscles Place two chairs close together. Sit on one with your legs extended over the other so that the heels are free and the feet are about twelve inches apart. The following motions are performed with the feet only, the legs being held perfectly still:

1.—Bring the feet up; 2.—Curl the toes down; 3.—Push the feet down; 4.—Turn feet inward attempting to touch soles together; 5.—Pull feet well back holding for a few seconds, and then start all over again with No. 1.

To Strengthen the Muscles Supporting The Arch

Take the same position as in the previous exercise. Turn feet inward, making the soles touch. Hold for a count of five, then relax.

To Benefit the Metatarsal Arch—

Stand on a large book with toes extended over the edge. Pull the toes down attempting to touch the side of the book with the underside of the toes. Hold for a count of three; Relax. The picking up of the feet, in conjunction with the toes, is another useful exercise.

For Fatigue and Pain in Calf and Knee Due to Muscular Tension—

Stand shoeless with feet parallel and body erect, facing a wall. Place hands on wall at shoulder height and allow the erect body to approach the wall slowly, making certain the heels remain on the ground. Hold for a count of five. If properly done, tension will be felt at the calves. Increasing the distance between yourself and the wall increases the severity of this exercise.

To Feel Right — Eat Right!

LITTLE REGGIE

PEGGY

THE TILLERS

PANDA FOR PAMELA—When the military hospital at Peterboro, Ont., burned, ex-Artillery Sgt. Jim Jourdain lost \$500 worth of belongings, among them a Panda Bear for his two-year-old Pamela, a store-to-store search left Jim still without a Panda, and the prospect for Pamela's merry Christmas looked blank indeed. But Pamela's faith in Santa Claus was saved when a Niagara Falls, Ont., man unexpectedly provided a twin substitute.

New Passports

Separate Documents Are Now Required By Husband And Wife

Major changes in the issuing of Canadian passports came into effect January 1, as follows:

1. The cost will be raised from \$3 for a new one and \$1 for a five-year renewal to \$5 and \$2.50.

2. They will indicate that the bearer is a Canadian citizen, rather than a British subject.

3. Separate passports will be obligatory for husband and wife, who formerly travelled on a joint document.

The citizenship regulation is in line with the Canadian Citizenship Act, which comes into force January 1. The new arrangement for husband and wife is aimed at facilitating their travel in other countries. Previously, when a Canadian couple landed in a foreign country and wished to travel from there to different countries, this could be done only by one of them. The one without the passport would be left immobile.

Raising of the passport price follows the postwar broadening of the spheres in which Canadians may travel. During the war, about all an ordinary citizen could do with a passport was to get into the United States, and accordingly lower rates were posted.

New Knights

Viscount Alexander Among Those Honored By King George

LONDON.—The King invested six new knights with the Order of the Garter. They received their decorations kneeling in the presence of the Queen and Queen Mary, at Buckingham Palace.

Those installed, in the first such ceremony of the Order ever to take place outside St. George's Chapel at Windsor, were Lords Addison, Cranborne, Mountatten, Alambrooke, Portal and Montgomery.

A seventh new knight, Viscount Alexander, Governor General of Canada, was unable to be present.

Have you ever tried dropping ice cubes into hanging plants instead of water in the usual manner? It will save time and mess.

QUITE A PROFIT

In a consignment of apples a fruit grower of Westmeath, Eire, recently sent to Dublin was one which had been split and a note giving his address inserted, the London Sunday Express relates. The note read: "I sold this apple for a penny. How much did you pay for it?" The grower received a reply from a Dublin woman saying a trader had the nerve to charge her 8d for it.

REASON FOR YELP

St. Thomas Times-Journal is somewhat annoyed because the W.P.T.H. won't let the bakers resume their slicing of bread. We heartily join the St. Thomas chum in this yelp, says the Ottawa Citizen, it being our job to put the family breadknife in trim when it's used for sharpening pencils, prying the lids off cans and chopping the ice off the steps of the back stoop.

A NEW ROLE FOR PUMPKIN

The pumpkin is at its height, and from many a warm kitchen is wafting an aromatic aroma of spicy pumpkin that's on its way to becoming a pie, a pudding, or—and here's something new—a deliciously exciting cup cake! Treat your family to this.

Spley Pumpkin Cakes

- 1½ cup shortening
- 1 cup sugar
- 2 eggs
- 1 cup milk
- 1 cup cooked pumpkin
- ½ cup all bran

Beat shortening until creamy, add sugar gradually and blend well. Add eggs and beat thoroughly. Combine milk, pumpkin and bran. Stir into first mixture alternately with sifted dry ingredients, beating after each addition. Spoon batter into greased

Honey Meringue Topping

1½ cup honey 1½ teaspoon salt 1 egg white, beaten

Beat honey over hot water. Pour thick enough to spread.

OUR COMPLETE
SHORT STORY—

MABEL WASN'T TALKING

By HOWARD BECKLER

Copyright Wheeler Newspaper Syndicate

WHOEVER made that crack about the overness of women, knew what he was talking about. This sage remarked that there is only one thing on earth sadder for a man to do than eat a T-bone steak smothered with onions, and that is start a ruckus with the wife.

Now take the case of Mabel and me. That's the wife, Mabel. She isn't talking to me at present. And for what? That's what gets a guy down. For what?

At the time this happened, I was out of work, but Mabel was dragging home her forty-five cents a week we were tickling along all right. I was getting to be quite a meal hustler. No sir, my cooking wasn't bad. At least, we never had to call for the stomach pump.

Then one morning the ice man gives me a silly grin and slippers. "Have you finished your spring cleaning as yet, Mr. Nelson," and he laughed like he felt something was very funny. He was referring to me, Nelson, and for some reason his little quip spoiled my whole day, couldn't put my heart into my cooking, so I decided to drive myself nuts. I picked up Mabel at work. I figured we could have a barbecue somewhere along the line.

Mabel was late coming down from the office, and when she arrived there was a tall, handsome goober walking with her. They stopped close to the car, but Mabel didn't see me. Mabel said, "That was a wonderful day in my life, doctor. I'll never forget it." After that she shakes hands with the guy.

He says, "Indeed you shouldn't, Mrs. Nelson." And it seems like he is never going to leave. On her hand, I am getting ready to climb out and slap him down, when he finally drops it.

This doctor leaves. I took the horn at Mabel and she comes over to the car, all smiles. Not me. I am feeling ugly. If I do say so, Mabel is a nifty number, and I am jealous as the next one. But I don't mention this doctor, neither does she. That's what gets in my craw, Mabel was never one to hold anything back on me.

We had a barbecue. It was lousy, or maybe it was just the way I was feeling.

Mabel said, "What's the matter, hon?" She hands me that golden smile of hers, but I don't react. The next night I have a swell feed all fixed up. I am feeling like a heel. I think I'll square myself with Mabel for acting like a moron. The phone rings at six o'clock. "Gosh, I'm sorry, hon." It is Mabel. "I've got to be a little overtime. I'll be home about ten."

That was that. I sat down alone to eat. Mabel got home right at ten. She seemed happy about the supper, but I was ugly again. We didn't do much talking. Things were getting me down.

I went over to the club for a game of handball one morning, and Bill Sparrow says, "I see your wife at Bolson's having supper. She's nice with some get. Looked old enough to be her grandpappy."

I gulped and said, "Yeah, it was." Tuesday was the night Mabel had to work until ten. I figure, maybe I can't blame Mabel much. Architects are a dime a dozen. That's my fault, and my future is about as bright as a London fog. But it hurts just the same. Especially when you feel the way I do about Mabel.

It's funny how a guy will hang on like a puppy dog, when he sees the chig attacking up against him. I got for Mabel every night after that, but I never caught her with the doctor again. She didn't have any more dinners with the old get either. And Mabel is feeling like a million all the time. She's kidding me and laughing and joking all the time. If she'd been a little and about things, I probably would have felt better. It was getting me down lower and lower.

"How about a game of cards with Jane and Eddie Drew?" Mabel asks me one night.

"No thanks," I tell Mabel. This Jane Drew is a big gossip monger, and I don't care for her. "I'm going out tonight."

"Where?" Mabel wants to know, I didn't answer her. I walked out and slammed the door after me like a ten-year-old. I went down and boyed a couple gams. Some blonde sat side of me in the club bar lounge, and asked me if I was handsome. First I told her to scram, and when she didn't I bought her a couple of drinks. I was lonesome. Lonesome for Mabel. Mabel was still up when I got home. She didn't act sore.

"It's getting you down, Joey," she said. "Being out of work is getting you down. But that's all over now."

I've got a surprise for you, Joey. In fact, I've got two surprises for you. "Ugh!" I grunted. I was not listening very hard.

"The other night, when I said I had to work, I was out to dinner with old Mr. Prescott. He's an old friend of my dad's, Joey. He's the biggest architect in town. And he called up while you were out tonight, and said I should send you down to see him Monday. He got a job for you."

I guess my face changed colors, and my tongue wouldn't work. I couldn't say anything. Mabel kept right on talking.

"And it's a good thing you're getting a job, because I have to quit mine pretty soon."

"Quit?" I manage to say.

"Yes. You see I went to the doctor the other day and... well, there's going to be three in the Nelson family, Joey, that's all."

"Aw, gee, Mabel," you can imagine how I felt. The whole world was right again. Things were cleared up like magic. I was a rotten pup for thinking what I'd been thinking, but of course I could never say anything to Mabel. It wouldn't be right. She'd think I didn't trust her anymore.

Everything was wonderful. The telephone rang. Mabel answered it. She was gone quite a while.

"That was Jane Drew," Mabel said. She sounded like the end of the world was here. "No wonder, you didn't want to play cards with Eddie and Jane tonight. They saw you sitting at Tony's bar with some blonde hussy!"

Mabel started to hawl after that, and I am sitting there speechless again. Mabel isn't talking to me at present. And for what? That's what gets a guy down. For what?

Poland Has Plans

Hopes To Increase Food Production And Raise Living Standards

Poland has adopted a three-year plan to raise industrial output in 1949. The nation's chief efforts will be directed toward increasing the production of food, clothing and footwear, to raise the level of nutrition and general standards of living among the majority of the people. The regulated territories have provided considerable industrial resources which the government is now quickly developing. Poland's three-year plan shows the resilience of spirit of the Polish people. Over 1,000 textile plants have been restored, as well as 25 of the 53 wood pulp mills destroyed by the Germans. Coal output has already been increased and the production of electrical power will soon reach pre-war standards.—Toronto Star.

CANADA PROVIDES
\$2,177,245 OF BUDGET

Total of \$67,130,000 Approved By U.N. General Assembly

NEW YORK—The United Nations General Assembly approved budgets for 1946 and 1947 totalling \$67,130,000 of which Canada will provide \$2,177,245.

The budget is divided as follows: Administrative budget for 1946, \$19,300,000, Canada's share 3.35 per cent.

Administrative budget for 1947, \$27,740,000, Canada's share 3.20 per cent.

Working capital, \$20,000,000, Canada's share 3.20 per cent.

Canada has already contributed \$1,000,500 of her share in these budgets.

The United States will carry the heaviest load with an assessment of 38.59 per cent. of the total.

Assessments in other nations ranged from 11.48 per cent. for the United Kingdom, 6.34 for Russia down to .04 per cent. for a number of small nations including Iceland, Costa Rica, Haiti, Paraguay and Nicaragua.

A separate budget for the International Refugee Organization set up by the U.N. will cost \$15,060,500 for operations and \$4,800,000 for administration.

Canada's share of these two items will be \$5,287,717 and \$153,600, respectively.

"Last Supper", Doomed

Exposure To Wind And Rain During War Causing Corrosion

MILAN, Italy.—A jumble of faded colored blot is all that remains today of one of the world's great masterpieces—Leonardo da Vinci's "Last Supper". Exposure to wind and rain after Allied bombs partially destroyed the refectory of Milan's church of Santa Maria della Grazie where Leonardo created his greatest work of art has irreparably added to the damage caused by chemical agents through the centuries.

Leonardo's greatest mistake was to paint his fresco on an extraordinarily damp wall with self-invented, untested pigments. The blotched remnants proved they were a failure.

Corrosion already was spreading swiftly over the painting at the time of the "great plague" in 1629 when the entire interior of Santa Maria della Grazie was covered with a thick layer of white plaster. The "doctors", however, luckily spared the "supper" but the condition of the fresco and the church got steadily worse until 1927. In that year, the Italian Government agreed to restore Santa Maria della Grazie with the financial aid of designer Ben. Errore Conti.

What little was done to the fresco was a mere fulfillment of an artistic duty, as experts already were firmly convinced that it was beyond restoration.

When Italy plunged into war in 1940, the fresco was covered with layers of sandbags. Allied bombs destroyed three walls of the refectory, however, and during the next few years, the sun, wind and rain added to the toll of the centuries.

While the refectory is now being rebuilt, nothing can be done with the fresco, which soon will become nothing but a memory.

AGRICULTURE DEPARTMENT
GIVES WEED KILLER WARNING

OTTAWA.—The agriculture department warned against heavy use of the new weed killer 2-4-D on field crops, disclosing that application in large amounts can injure grain and sharply reduce yield.

Although a light application of the weed killer often boosts the yield of field crops because it kills many weeds, experiments by the department show the danger of too heavy applications.

PRE-MIDNIGHT REST

One scientist states that the "natural" sleeping hours of human beings are from 8 p.m. to midnight and adds that those who suffer from sleeplessness would do better to retire early in the evening and get as much sleep as possible before midnight.

There are 35 officers and 26 other ranks of the Canadian Army presently at work compiling an official history of World War II. Army Headquarters announced recently it is expected that a one-volume official history sketch will be ready for distribution sometime next summer, and that the official history proper, consisting of four volumes, will be ready for publication in about five years.

SELECTED
RECIPES

APPLE SAUCE NUT COOKIES

1 1/2 cups sifted flour
1/2 teaspoon baking powder
1/2 teaspoon soda
1/2 teaspoon salt
1/2 teaspoon cinnamon
1/2 teaspoon cloves
1/2 teaspoon nutmeg
1/2 cup shortening
1/2 cup sugar
1 egg, unbeaten
1 cup thick sweetened apple sauce

1/2 cup raisins
1/2 cup chopped nut meats
Sift flour once, measure, add baking powder, soda, salt, and spices, and sift again.

Cream shortening, add sugar, and cream well. Add egg and beat well.

Drop from teaspoon on greased baking sheet 2 inches apart. Bake in moderate oven (375 deg. F.) 15 minutes, or until done. Makes about 35 dozen cookies.

Suggestion: These cookies are also very good with cereals substituted for nuts. Use 1 cup of Grape-Nuts, Raisins, Grape-Nuts, Raisins, Bran Flakes, or crushed Post-Tens instead of the nuts.

CRISP PEANUT COOKIES

1 1/2 cups sifted flour
1/2 teaspoon baking powder
1/2 teaspoon soda
1/2 teaspoon salt
1/2 cup shortening
1 cup brown sugar, firmly packed
1 egg, unbeaten
1/2 cup milk

Sift flour once, measure, add baking powder, soda, and salt, and sift again.

Cream shortening, add sugar gradually, and cream together until light and fluffy. Add egg and beat well.

Add flour to creamed mixture, alternately with milk, mixing well after each addition. Add peanuts and blend.

Drop from teaspoon on greased baking sheet slightly wetted with cold water. Bake in moderate oven (375 deg. F.) 12 to 15 minutes, or until done. Makes 25 cookies, 3 1/2 inches in diameter.

An Exclusive Ranch

R.C.A.F. Veteran Is Raising Valuable Chinchillas On Vancouver Island

Jeff Jeffries, an R.C.A.F. veteran who operates one of the very few chinchilla ranches in Canada, just outside Nanaimo on Vancouver Island, is doing so with the help of awaiting returns allowance from D.V.A. His wife, Lee, is his business partner. An everyday sort of chinchilla coat, by the way, retails for about \$75,000, but a really de luxe number carries a price tag upwards of \$125,000. The little animals look like a cross between a squirrel, a rat and a rabbit; their fur is incredibly soft. Last fall the Jeffries set to work raising chinchillas on the farm they had just purchased at the foot of Mount Benson. They now have 16 of the domesticated Chinchillas, which are valued at about \$1,500 a pair. Two years ago Jeff sent down to Colorado and purchased two pairs of chinchillas, then paid for boarding them at a ranch until he was discharged from the Air Force. He and his wife are raising breeding stock.

He said chemically-wrapped oranges in a recent shipment to Hong Kong arrived in 50 per cent. better condition than a similar amount of fruit in standard wrappings.

CHINA MONOPOLY INCREASED

Chinese authorities are reported putting finishing touches on a program to increase production of tung oil, virtual Chinese monopoly in world markets. Tung tree planters will be given every encouragement under a plan based on findings of the Sino-American agricultural commission.

Scientists recognize 11 cultivated species of races of wheat.

ITCH CHECKED in a day or—Money Back.

For quick relief from itching caused by eczema, athlete's foot, scabies, shingles and other skin conditions, use this powerful, medicated, liquid solution. Itches disappear in 24 hours. Guaranteed today, for \$2.50. E. S. S. PRESCRIPTION.

HILLCREST HAPPENINGS

Mrs. McNeil and her daughter Kay,
of London, England, arrived here a
short time ago and are visiting with
Mrs. McNeil's non-in-law and daughter,
Mrs. and Mrs. A. Bain Jr. Mrs.
McNeil and Kay expect to reside here
permanently.

Miss Christa Smith, of Calgary,
spent part of the Christmas vacation
visiting with friends here.

Mr. Stanley Walasko, who arrived
in Canada about six weeks ago from
Poland, is visiting here with his
uncle, Mr. V. Walasko, for a short
time, prior to taking up farm work.

Mr. and Mrs. Frank Semanick are
receiving congratulations on the birth
of a son at Karlner's maternity home.

Mrs. and Mrs. E. O. Duke and Lloyd
were New Year's guests with Mr. and
Mrs. Horace Duke, of Fernie.

Miss Ernestine Robinson, RN, spent
the New Year Holiday at the home
of her parents, Mr. and Mrs. Robinson.

Mr. and Mrs. J. Dudley were New
Year's guests of Mr. and Mrs. Pres-
cott, in Bellevue.

Grant—Gaeiz

A quiet ceremony took place in the
vestry of the Central United church
in Calgary at 8 pm, Monday, Decem-
ber 23rd, when Ruby Gaeiz, of Cal-
gary, was united in marriage to

Ferguson Guard, son of Mr. and Mrs.
D. A. Grant, of Hillcrest. Reverend
Powell of Piney Creek officiated. The
bride's only attendant was her sister,
Mrs. David Smith, while David Smith,
of Coleman, acted as best man. After
a honeymoon visiting with the bride's
parents in Hillcrest the happy couple
left for Edmonton where the groom
is attending the university of Alberta.
Karlner—Stanko

A lovely wedding was solemnized at
the Hillcrest United church on Decem-
ber 28, with Rev. Irwin officiating,
when Mary, youngest daughter of
Mrs. Martin Stanko and the late Mr.
Stanko, of East Coulee, became the
bride of Bert, elder son of Mr. and
Mrs. A. Karlner, of Hillcrest. The
bride, entering the church on the arm
of her uncle, Mr. M. Wisla, looked
lovely in a floor length gown of white
satin and net and elbow length gloves
of white jersey, she carried a bridal
bouquet of pink roses. Her only jewel-
lery was a strand of beautifully
matched pearls, a gift from her bride-
groom. Her cascading veil was held
in place by a Queen Anne headpiece
and was carried by five-year-old
Peggy Jean Andow, who was dressed
in ankle length red over blue satin.
The maid of honor, Miss Tillie Vag-
ontal, of East Coulee, wore deep rose
tulle and carried a bouquet of roses.

Mrs. A. Karlner, mother of the
groom, was gowned in black crepe
with flowered jersey front, while Mrs.
A. Kruppa, grandmother of the
groom, wore black and rose crepe.
Both wore corsages of pink carnations.
Mario Colasimo attended the
groom and Cliff Latcher ushered the
guests to their seats. During the sign-
ing of the register Mrs. W. Irwin, of
Bellevue, played, "I Love You Truly."
Following the ceremony a reception
was held at the home of the bride's
uncle and aunt, Mrs. and Mrs. M. Wisla.
Out of town guests were Miss Tillie
Vagontal and two aunts of the bride,
all of East Coulee. After a few days
spent with the groom's parents the
happy couple left for Vancouver
where they will reside.

Honor Discoverer of Marquis Wheat

The best shown in this photograph of the late Sir Charles Saunders,
Dominion Cerealist from 1903 to 1922 was recently unveiled in the William
Saunders Building, Central Experimental Farm, Ottawa. The late Sir
Charles was the son of Dr. William Saunders, first Director of the Dominion
Experimental Farms. Most of the work that resulted in the discovery of the
world famous Marquis wheat was done at the Experimental Farm at Ottawa.
The unveiling was performed by Dr. L. H. Newman (left), present Dominion
Cerealist, who succeeded Sir Charles Saunders to the position. Those shown
in this photo are: Dr. Newman, Dr. Newman are Lionel Fowley, who made the
find, and Dr. B. B. Archibald, present Director, Dominion Experimental

THE THINGS THAT MONEY CAN'T BUY

**HEALTH; A HAPPY HOME; opportunity
for your children; your own peace of mind
—these are priceless gifts. You can't buy
them with money.**

But reasonable financial security, based on
— a planned programme of personal saving,
can help to guard and guarantee them.

Take your **Victory Bonds**, for example.
Pretty reassuring to have them tucked away
as a financial reserve, always "on tap" in

time of opportunity or need. Pretty con-
vincing proof, too, that you really *can* save
when there's a real saving job to be done.

Perhaps today's rising costs or other fac-
tors are making it hard for you to carry on
your savings programme. By the time you
have met all your expenses, perhaps there's
mighty little left for that all-important
item marked "Savings".

Try putting savings first, not last, on

your budget list. Owe yourself a definite
amount each month, and make sure you
collect it. It means careful budgeting, and
putting off buying a good many things you'd
like to have. But never forget—this is your
share of what you earn. This is the part
of your income which will help to assure
for yourself and your family all the things
that money can't buy.

PERHAPS YOU are already one of the
hundreds of thousands of thrifty Canadians
who have a savings account with the Royal
Bank. If not, we invite you to come in and
open one. Perhaps your first deposit will
have to be small; don't
let that worry you.
The important thing
is to start. It will be a
pleasure to serve you.

THE ROYAL BANK OF CANADA

BLAIRMORE BRANCH - M. G. SMITH, Manager
BELLEVUE BRANCH - L. B. LONG, Manager

Have you heard what they say... about CHEVROLET?

FROM DOCTORS... from farmers... from business-
men... from salesmen... from fleet operators and
men who drive a car for pleasure... from purchas-
ers in every trade and occupation across the Dominion,
comes praise of the new 1946 Chevrolet. To
them, Chevrolet's Big Car Quality at Lowest Cost...
its flawless, trouble-free operation... is an actual,
proven fact. Throughout their letters, expressing
their pleasure and complete satisfaction in the new
Chevrolet, certain phrases occur again and again
— "Unbelievable that such performance can come
from a car as low priced as Chevrolet"... "The
best Chevrolet yet"... "Definitely worth waiting
for".

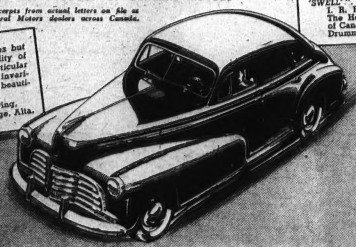

A PRODUCT OF GENERAL MOTORS

*Excerpts from actual letters on file at
General Motors dealers across Canada.

"I could name many features but
will mention just one—quality of
workmanship. When particular
people drive with me, they invari-
ably remark: 'You have a beauti-
fully finished car'."
I. H. Irving,
Lethbridge, Alta.

"I am very much pleased with my
1946 Chevrolet Sedan and have
driven it over 20,000 miles. The
performance of the motor, ease in
driving, and quality of material
divisions, and quality of material
workmanship make it a splen-
did car for taxi business."
Jack Carter, N.S.,
Bathurst.

"During our fifteen years in the
taxi business, we have never had
any car or cars that operated so
economically and trouble-free as
these 1946 Chevrolets are doing."
Emile Lambier, Ltd.,
Montreal, P.Q.

"The men using these cars cover
every part of the Dominion in
sending out a questionnaire as to
the performance and comfort in
driving their new Chevrolet cars.
The replies ALL have been
SWIFT."
I. H. Ross,
The Holts Rubber Company
of Canada Ltd.,
Truro, N.S.

"The two-tone job that I have, done
grey body with royal blue top is
what I still see a big thrill when
people stop and stare. It is amusing
to hear the remarks passed, and
they are all in the favor."
H. Knight,
Winnipeg, Man.

Suffering China Calls

to Canadian Farmers

WAR has spread wreckage and suffering among the 500,000,000 people of Canada's Pacific neighbor—China.

Blasted from farms and villages, millions of Chinese families are homeless, hungry and in rags, dying daily from starvation and disease. China was first to feel the Fascist onslaught. For eight terrible years—from July, 1937 to August, 1945—China heroically breast the aggressor's hordes. Two years longer than any of her allies!

Farmers Call to Farmers

To-day, China presents a heart-rending spectacle to Canadians, mercifully spared the ravages of enemy guns and bombs. And especially to Canadian farmers!

About 83 per cent. of China's 500,000,000 people are peasant farmers. To the scourge of Japanese planes and artillery have been added, in many districts, flood or drought, and shortage of seed grain. Besides the need for food, clothing, medical supplies, hospital equipment, there is urgent need for reconstruction of farms and homes.

Canada's Aid Essential

During the war, Canadians, through The Chinese War Relief Fund, sent to China some \$2,654,000 in money and over 1,464,000 pounds of used clothing, valued at some \$2,929,000. But the aftermath of war can be more terrible than war itself. The world-wide relief work of the United Nations Relief and

Rehabilitation Agency (UNRRA) ends March 1st in China. The burden will fall on voluntary agencies. So Canadian Aid to China (formerly The Chinese War Relief) is making a national appeal. *This is an urgent call to Canadian farmers to support this effort.*

How YOU Can Help

To make it more convenient for YOU to participate, all Elevator companies have been authorized to receive donations of part of grain deliveries as Aid to China.

When you deliver grain to your Elevator, simply tell the Elevator Agent how many bushels you wish to donate to Canadian Aid to China.

The aim is one per cent. of the storage capacity of each Elevator. Will YOU help to make this possible?

Enlightened Self-Interest

This appeal is to our common humanity as citizens of the One World from which to-day we dare not isolate ourselves. In helping to rehabilitate the Chinese, we are hastening a return to world health and progress.

But we may well remember that China is not only a World Neighbor of Canada, but a good potential customer for our products. In helping her to recover from her war wounds, we are building goodwill and laying the basis of profitable relations in the days to come.

WHAT TO DO

When you deliver grain to your Elevator, simply tell the Elevator Agent how many bushels you wish to donate to CANADIAN AID TO CHINA. Your Agent will make out a ticket in the name of CANADIAN AID TO CHINA for your donation. Official Receipts will be forwarded to you from your Provincial Headquarters for income tax purposes.

No cheque to write, no cash to pay, no mailing to do. It's as simple as that!

CANADIAN FARMERS, BE GENEROUS! CHINA, A GOOD NEIGHBOR, NEEDS YOUR HELP!

This is the only national appeal to be made in Canada during the next twelve months for Chinese relief.

The Question Of Immigration

THERE ARE INDICATIONS that at the coming session of Parliament one of the most important questions to be considered will be that of immigration. There is growing interest throughout the country in this subject, and already some measures have been taken by the government in respect to it. Recently an Order-in-Council was passed, making it possible, under certain conditions, for relatives of Canadians to enter this country. It has also been announced that some special immigration officers had been sent to Europe because of the need for Canada to take a part in the solution of the refugee problem there.

"Open Door" Is Not Favored

There is no suggestion, even on the part of those most strongly in favor of an expansive immigration program, to institute a "wide open door" policy such as existed here during the early part of this century. A senate committee on immigration which has made a close study of the problem proposes a plan of "selective attraction." Under this plan, immigration officers would be stationed in Europe to interview prospective settlers there, relatives and friends of Canadians would have priority in entering this country, and the immigration act would be revised to allow for the finding and selection of immigrants. The report further proposes a "vigorous administration" to encourage the free movement of desirable types of settlers into Canada.

Shortage Of Labor In U.K.

One factor that is expected to affect any program of immigration which may be introduced here is the acute manpower shortage in the United Kingdom. It is reported that officials coming from the United Kingdom are unwilling to discuss immigration at this time, but it is considered probable that when Canada's policy in regard to this matter is clarified it will be found that people in the United Kingdom may be discouraged from leaving to live elsewhere because of the urgent need for all available labor to carry out post-war projects there. Whatever may develop in the future, it is apparent that there will be much interest both here and abroad, in any discussions which may take place in parliament in connection with this important problem.

"Why Didn't I Do This Before!"

If your nose ever fills up with stuffy transient congestion, next time put a little V-A-T-R-O-L in each nostril. Quickly congestion is relieved, breathing is easy. V-A-T-R-O-L works right where trouble is to relieve distress of head colds. Try it. Works Real. You'll Like It!

Britain's Oldest Peer

Was Given Only Few Hours To Live
Ninety-Eight Years Ago

The London Daily Mail reports that Britain's oldest peer, Lord Haverly, who was christened in his mother's bedroom because the doctors gave him only a few hours to live, has died at Chislehurst, aged 98. Lord Haverly had refused a life insurance policy, at the age of 21, because of his delicate health. Eventually he became deputy chairman of the company that refused him. He was the ninth man in London to have a telephone number—London 9, Knightsbridge, Queen Victoria. Lord Haverly was the oldest knight bachelor (1875) and the oldest baronet (1906) as well as being the oldest peer. He was, so far as is known, also the oldest volunteer in the kingdom, having been a cadet in one of Lord Trenchard's London regiments at the age of 12.

A One-Man Show

No Large Committee Was Needed To
Welcome Distinguished Guest

During the 1944 presidential election campaign, Governor Dewey was scheduled to make a radio speech originating in a small mid-western city. The network, with which the local station was affiliated sent the following telegram to the station owner:

"Gov. Dewey arrives Monday at 9:22 p.m. Please have on hand at railroad station, your general manager, commercial manager, program director, news director, special event director, chief announcer, and chief engineer."

The station owner wired back: "Don't worry. I'll be there."

RAW FURS

Nanover is the best market for western Canadian raw furs, we claim to be the people who give you the best return, the quickest, ship your furs free by mail, your heavy belts such as beaver, badger, muskrat by express. Canada To get acquainted, we will send you absolutely free a complete set of Canada's life game animal close-up photos on receipt of a shipment value \$10.00, or more. Send us now 19 cents to secure at a cost of \$10.00.

AUSTRALIAN SOLDIER ESCAPES BEHEADING

Tells Of Horrifying Experience
Under Japanese Custody

TOKYO.—An Australian soldier told the International War Crimes Court that he had lived through a Japanese officer's attempt to behead him—"I felt a heavy, dull blow on the back of my neck"—and eventually had crawled to safety after recovering consciousness to find himself buried in shallow grave.

He was the first witness called when Australians began the final phase of the international prosecution which began last June 3.

The soldier, Colin Fleming Brien, 23, of Sydney, New South Wales, said his botched "execution" took place after he was captured, wounded, in battle near Singapore early in 1942. A platoon of Japanese soldiers and 15 Japanese officers stood in parade formation in a jungle clearing when he testified, while "I was searched; then the officer who brought me to the clearing said in English: 'You are going to meet your God'."

Brien was ordered to sit down with his feet and legs in the shallow grave, his wrists were tied behind his back and a towel tied over his eyes. The officer, sword in hand, loosened Brien's shirt collar and bent his head forward.

"After a few seconds I felt a heavy, dull blow on the back of my neck," he continued. "I fell over on my right side, then lost consciousness."

"When I regained consciousness I was lying at the bottom of the grave underneath clods of earth. I had a large wound in the back of my neck, and was covered with blood."

"I lay there for about an hour. I could not use my hands, and the only way I could get out was to lever (move) the pile of clods with my feet. I managed to dislodge them and crawl out, and staggered into the jungle grass where I lay all day."

That night, he testified, he managed to untie his wrists. After three days, he reached Singapore where he surrendered to civil police who handed him over to their Japanese masters.

He recuperated in Changi prison hospital, and remained a prisoner of war camps at Singapore until the end of the war, he added.

WILL TAKE YEARS

John Cunningham, chief test pilot of the De Havilland Aircraft Company of England and a British night flyer ace of the war, said it will be at least 10 years before man solves the problems of flying faster than the speed of sound.

NEW MEDICAL DISCOVERY SUCCESS

Waste Blood With Penicillin
Proves Almost Curative Jell

CLEVELAND.—Penicillin mixed with hemoglobin, the red coloring matter of human blood, is curing wounds and sores where nothing else succeeds, not even pure penicillin, it was reported to the American College of Surgeons.

Dr. Col. Frank Janney, of Northwestern University, Chicago, said the discovery was made in two U.S. Army hospitals in England, which were short of medical supplies and on their own initiative tried for new uses of what they had.

Waste blood, of no use to anyone, was one thing these hospitals had in abundance. They extracted the hemoglobin, in the form of a red, sticky powder. They mixed it with water, spunked a jelly into this jelly they mixed penicillin.

The mixture was placed directly into wounds. The cases at first were only those wounds which had failed to heal with all other available treatments. Penicillin, given internally, had failed. This was because in the blood the penicillin does not get higher than a certain concentration, and this concentration was not strong enough to kill some kinds of germs, which are highly resistant to penicillin.

But in the red blood mixture, the military surgeons placed a much stronger concentration of the wonder drug. In most cases, only one application of this penicillin in human jelly had to be used.

Col. Janney said he had no effects of any sort had been reported. Hemoglobin, itself a human tissue ingredient, has a naturally stimulating effect on tissue growth.

In the hemoglobin the penicillin is released slowly. Pure penicillin does not have the same good effect in wounds, both because it was absorbed too rapidly and because it was irritating to the wound.

Dr. Herbert Conway, of New York, reported that tattooing changes the color of the dark, bluish, smooth blackness known as port wine stains to nearly normal skin color. Wine has nothing to do with these disfigurements.

For tattooing a color is selected that will nearly change the port wine shade to that of ordinary skin. Dr. Conway said that tattooing does a spectacular job of changing the color of a skin graft to match that of the area where the graft is placed.

Tin, one of the earliest metals discovered, is mentioned in several books of the Bible.

BACKACHE The Plague of Outdoor Men

The outdoor man, whether he be farmer, truck driver, or railway operator, is often subject to backache. This may be the result of exposure to cold and dampness or the result of strain from the jolting and bumping of the vehicle he rides.

To many people, women as well as men, it would be great to be free of backache, with its accompanying pains and annoying of ailments. And here is how you may be relieved of backache and other symptoms of poisons in the blood.

The treatment suggested is Dr. Chase's Kidney Liver Pills. By reason of their stimulating action on both the liver and kidneys, you have two chances to get of getting relief from your backache by using Dr. Chase's Pills. The torpid liver is aroused to action, the kidneys are stimulated and consequently these organs help to purify the blood of the poisonous impurities which bring pains and aches and tired feelings.

Keep regular and keep well by using Dr. Chase's Kidney Liver Pills. 35c a box.

Dr. Chase's Kidney Liver Pills

FUNNY AND + + + OTHERWISE

An American soldier in England was giving some illustrations of the size of his country. "You can board a train in the State of Texas at any hour," he said impressively, "and 24 hours later you'll still be in Texas."

"Yes," said one of his English listeners, with feeling. "We've got trains like that here, too."

The young wife greeted her husband affectionately when he returned from the office.

"Poor darling," she said. "You must be tired and hungry. Would you like some nice soup, followed by nice tender chops with golden-brown potatoes and green peas, and then mushrooms on toast?"

"No, darling," he husband answered firmly, "let's save the money and eat home."

A Negro who had been exploring chicken coops heard that the sheriff was after him. Hastily he sought the railway station and asked for a ticket to the end of the line on the fastest train.

"Our fastest train left just ten minutes ago," he was told.

"Well," gasped the Negro, "jes' give me a ticket an' point out de track!"

The weary father was marching up and down at 1 a.m. with a walling infant in his arms, when there came a knock at the door. It was the tenant from below, carrying a pair of new shoes.

"I say, old man," he said, "why are you now about it, you about break these in for me?"

"Is there anything you fancy to eat before the execution?" asked the warden.

"Yes, mushrooms," said the condemned man. "I've always been scared to try them, in case I'd be poisoned."

Two sweet young things were discussing affairs of the heart.

"So you've accepted Tom?" said one acidly. "I suppose he said he was going to marry me."

"Well, not exactly," replied the other blandly. "But he did consent that he'd done a lot of silly things before he met me."

The officer of the inspector of taxes and the collector of taxes were in the same building.

A woman who got into the lift said to the liftoyer, "Taxer."

"Collector or inspector?" asked the boy.

"Taxes, please," replied the lady. "Now, look 'ere, mam," said the liftoyer. "Do yer want ter pay or just 'ave an argument?"

A young man, after eight years' absence abroad, alighted at his home station and despite his expectations there was no one there to meet him. He then caught sight of the station-master, a friend since boyhood, and he was about to extend a hearty greeting when the other spoke first.

"Hello, George!" he said. "Goin' away?"

Scot (seeing his first hockey game)—And do you ladies chasing about the ice get paid?

Friend—Oh yes, big salaries.

Scot—And the lad between the posts. Is he paid, too?

Friend—Certainly, highly paid.

Scot—Wouldn't it be cheaper to board up the wee place?

People became so interested in golf that they were neglecting their archery practice, so Scotland imposed a ban on golf in 1941.

SUES MRS. TRUMAN—Mrs. Bess Truman, wife of the U.S. president, has been named defendant in a \$100,000 damage suit by Mrs. Nella May Pearson, shown here, of Aukausas, Mo. Principal defendant is Henry J. Nicholson, designated as driver of the car belonging to Mrs. Truman which Mrs. Pearson allegedly died from injuries. Mrs. Truman was not in the car.

Hitler Considered Churchill Strong

WASHINGTON.—Adolf Hitler considered former British Prime Minister Winston Churchill to a certain extent a strong man," captured German documents revealed.

Notes of conversation between Hitler and his partner Benito Mussolini in 1944 near Salzburg, Austria, were published in the State Department's weekly bulletin.

Hitler, who was telling Mussolini about the Axis' troubles due to the surrender of Italian Marshal Pietro Badoglio, said he was convinced that "courageous and peoples at all periods could be represented by individual men."

"The Russians had their Stalin," Hitler was quoted as saying. "It was the misfortune of France that no great man had been discovered there."

Hitler also said he was convinced that Italy was a strong man and one thought of Italy only in connection with the Duce."

GEMS OF THOUGHT

COURTESY
Courtesy is love in trifles, and where love is not, though its counterfeits may abound, courtesy itself is not.—George Jackson.

"The great courtesies sweeten life; the greater, ennoble it.—Bovee.

There is a courtesy of the heart; it is allied to love. From it springs the purest courtesy in the outward behavior.—Goethe.

When the heart speaks, however simple the words, its language is always acceptable to those who have hearts.—Baker Eddy.

The courtesies of a small and trivial character are the ones which attract deepest to the grateful and appreciating heart.—Henry Clay.

All doors open to courtesy.—Thomas Fuller.

To help restore shrunken woollens, rinse them in soapy water instead of clear water.

FIRE IN ELEVATOR KILLS ONE—One man died and damage estimated at \$80,000 was done in this spectacular blaze which broke out in a grain elevator at Parkhill, Ont., and destroyed the elevator and a chopping mill. The new pump shown in action, delivered to the village fire department only a few days previously, was credited with halting spread of the fire.

Crowded Agenda For Royal Tour Of South Africa

LONDON.—When the King and Queen with Princess Elizabeth and Margaret go to South Africa in February they will be launched on a 10-week tour as crowded if not more strenuous than their tour of Canada in 1939.

"Looks as if South Africa will stand still for the first few days," said an official at South Africa House, Trafalgar square. "Everyone seems to be going crazy over the preparations. And the fact that the princesses are going, too, has added considerably to the general excitement."

South Africa will be the third imperial tour undertaken by their majesties and the second since their accession to the throne. In 1927 as Duke and Duchess of York they travelled to New Zealand and Australia. In 1939 as King and Queen they visited Canada.

The crowded programme of public functions, travel and night-sightings opens in Cape Town Feb. 17 when the royal family disembark from H.M.S. Vanguard, latest-built British capital ship, and proceed to a pavilion erected on the quayside. There they will be received by the governor general, Hon. G. B. Van Zyl, Prime Minister Smuts and members of the cabinet. The mayor of Cape Town and the mayors of surrounding municipalities will present addresses of welcome.

From there on they will traverse thousands of miles of the entire state visits to British protectorates, a week in southern Rhodesia and nine nights in Pretoria—the nine days being spent in travel to neighboring towns. From Pretoria, the party will visit Johannesburg, Pieterburg and Standerton, the constituency of Prime Minister Smuts.

In Johannesburg the Aero club of South Africa is planning a special king's cup air race under the King's patronage with Johannesburg as starting and finishing point and a prize of 5,000 pounds (\$20,000) to attract international competition.

Most of the trip, as in Canada, will be made aboard a special royal train, preceded by a pilot train. The royal train will consist of 14 coaches, eight of them new vehicles. The rest comprising lounge, kitchen, diners and van will be drawn from the existing South African luxury blue train now in service.

On their return to Cape Town, April 20 a state ball will be held in honor of Elizabeth's 21st birthday which falls on April 21.

SOLDIERS HELD

Four From Britain Practically Held Under Arrest in Yugoslavia

BELGRADE.—British embassy representatives here so far have not been allowed to see four British soldiers arrested several months ago by the Yugoslavs, an embassy spokesman said.

The four soldiers, he added, "strayed" into what the Yugoslavs say is their territory at various times since last August.

"We have made repeated and energetic representations to the Yugoslavs, but so far have failed to get any satisfaction."

"As far as the embassy knows, they are being held in arrest but have not been charged."

MANUSCRIPT FOUND

Valued Possession Of Trieste Library Located In New Jersey

NEW YORK.—The New York Herald Tribune says that a 14th century manuscript copy of Petrarch's "Africa," a valued Trieste library possession that disappeared during the war, has been located in a thread-cutting shop in Union City, N.J. The newspaper says that Walter Reuther, 26, a former soldier, was found to have the book, having bought it from an Italian—who may have stolen it.

DOCTOR SAVES BOY'S LIFE

BY SLITTING WINDPIPE

EAST ORANGE, N.J. — Tommy Stanley, 4½, was reported recovering after an emergency operation performed at home by his physician uncle with a nine-inch kitchen carving knife to relieve the boy from choking to death on orange seed and pulp.

Tommy's uncle, Dr. Thomas A. Stanley, hastily slit the boy's windpipe to permit respiration while the father, Charles P. Stanley, held Tommy on the living room couch.

An ambulance later took Tommy to hospital where a specialist removed the seed and pulp.

TRAIN IN BRITAIN

LONDON.—British soldiers must be trained principally in Britain, War Secretary Bellinger told the house of commons after members suggested Canada and Germany as possible alternative sites. Bellinger said the cost of sending troops to Canada would be prohibitive, even if Canada were prepared to make arrangements for training British soldiers. 2708

MANITORA CHIEF JUSTICE

J. B. Coyne (above) of Winnipeg has been appointed chief justice of the supreme court of Manitoba, it is announced from Ottawa: The new judge was president of the Canadian International Relations association and did a great deal of supreme court work in Ottawa.

DIDN'T WORK

Man-Made Meteorites Failed To Leave Rocket

LOS ANGELES.—Science's first attempt to launch man-made meteorites into the earth's upper atmosphere with a German V-2 rocket was classed as a failure by Dr. James A. Van Allen, John Hopkins university physicist, a key figure in the experiment.

Arriving here after witnessing the firing of the rocket at White Sands proving ground, Van Allen said a time device in the rocket's warhead apparently had failed and that none of the metal fragments actually was shot out from the rocket.

DIVORCE RATE ALARMING

LONDON.—Dr. Henry Wilson, bishop of Chelmsford, told Britons that divorce is increasing so rapidly in the United Kingdom that it soon will "be as common in this country as in the U.S.A. Bishop Wilson wrote in his church publication that the rate of divorce "is causing great alarm, even in circles which are not concerned with the religious side of the question."

NEW TRAINING CO-ORDINATOR

Appointed co-ordinator of all Canadian army training, Col. W. R. Moncel, 29, will train the policy for individual training commands as methods are framed to meet the needs of the atomic age. At the age of 27, he was the youngest brigadier in Canada's history and commanded a fighting armored brigade.

Announces Lifting Of Controls On Coal, Coke And Solid Fuels

Reconstruction Minister Howe announced that all controls on coal, coke and solid fuels terminated Dec. 31.

Mr. Howe said that while the control on the fuels will be lifted, a coal administration under the Prices Board will be appointed to regulate the price of coal, coke and solid fuels.

"It is understood that the new administrator of coal, coke and solid fuels will be J. E. Van Buskirk, president of the Commodity Prices Stabilization Corporation," said Mr. Howe.

In making the announcement, Mr. Howe said that for the first time in some four years he was able to give a "confident and reassuring forecast" of Canada's fuel supply situation.

Present stocks of bituminous coal for industrial use are satisfactory and, when augmented by the rail shipments that are usual during the winter months, should be sufficient until the opening of navigation.

Similarly, total shipments of all types of domestic fuel to date are equal to those of last year. Deliveries of anthracite from the United States to Canada should continue at a satisfactory rate.

The mild weather of the autumn and early winter has kept stocks in householders' bins at normal levels and there was some evidence to indicate that these stocks were larger than in previous winters.

The reassuring picture now was in contrast to that of last June when coal strikes in the United States and a shipping strike in Canada made it appear that Canada would face the winter with a probable shortage of 3,500,000 tons of coal.

When the shipping strike ended efforts were concentrated on the movement of coal from the United States. In addition the movement of fuel from Western and Eastern Canada to Central Canada was increased. The result was that at the close of navigation the carrier deficit had been fully restored.

Mr. Howe paid tribute to the work of Ernest J. Brunning, coal controller, Ian MacLaren, the assistant controller, and their associates in the central and regional fields.

HUXLEY WILL DIRECT UNESCO

FOR TWO YEARS.—Appointed director of the United Nations Educational, Scientific and Cultural Organization for a period of two years, Julian Huxley is seen at his desk in the hotel Majestic, UNESCO's headquarters in Paris.

CANADIAN DOLLAR RATE ESTABLISHED

OTTAWA.—The government has passed an order-in-council establishing the Canadian dollar at its present value of parity with the United States dollar until further notice, it was learned authoritatively.

This action is necessary under legislation passed at the last session of parliament to continue the war-born foreign exchange board. The Exchange Control act becomes effective Jan. 1 and requires that the dollar rate be fixed by order-in-council.

While the order does not in itself mean any change, informed sources said it did serve to emphasize that the government was planning to revalue the dollar and would be, in effect, a denial of recent reports in some financial quarters in Canada and the United States that revaluation was impending.

Assistance to provide new access roads to undeveloped mining and forest resources.

Assistance for the construction of transportation facilities of national importance including the Trans-Canada highway, international connections and approaches to national parks.

In practice, the federal government, despite lack of specific agreements with the provinces, has provided assistance and in some cases all the funds for new roads to mining developments and connections with the national park system. But nothing has been done toward further developing the nation open to ocean highway.

This is one of the main problems, therefore, which demands more immediate co-operation between the federal and provincial governments in the allocation of tax revenues.

Trans-Canada Highway Is Urgent Problem

OTTAWA.—One of the most pressing post-war problems that confronts Canada is further extension of all-weather, hard surfacing and maintenance of the Trans-Canada highway system from coast to coast.

At present, a state of complete confusion appears to exist concerning improvement of this national highway system which is partly under dubious federal and partly under actual provincial responsibility.

In some provinces, the national highway is completely hard surfaced. In others, it is hard surfaced only in part. In one province, Saskatchewan, there is no all-weather road surfacing at all on this main highway, only gravelled treatment with some "black top" surfacing.

No federal contributions have been made for this purpose, except within or on connections to the national parks, since prior to the war. In the pre-war years, the federal government made financial contributions to each province as a share of constructing the national highway. The provinces expended the federal funds, and the dominion department of transport checked the expenditure.

Now, the provinces assume responsibility for maintenance of the highway which, now, in many stretches is in a bad state of repair due to inability of the federal governments to supply necessary funds.

A more definite division of this responsibility between the dominion and the provinces was proposed in the federal government's green book put before the dominion-provincial conference last summer, which ended in a deadlock. In those proposals, the federal government promised, if specific agreements were reached, to provide:

Assistance to provide new access roads to undeveloped mining and forest resources.

Assistance for the construction of transportation facilities of national importance including the Trans-Canada highway, international connections and approaches to national parks.

In practice, the federal government, despite lack of specific agreements with the provinces, has provided assistance and in some cases all the funds for new roads to mining developments and connections with the national park system. But nothing has been done toward further developing the nation open to ocean highway.

This is one of the main problems, therefore, which demands more immediate co-operation between the federal and provincial governments in the allocation of tax revenues.

New Operation Defeats Phantom Limb Pain

Does Away Imaginary Arm And Legs Of Amputees

CLEVELAND.—A new operation to get rid of phantom limbs, the imaginary arms and legs of amputees, which nevertheless are really painful, was reported to the American College of Surgeons.

These phantom limbs last few weeks or months and occasionally for years. A man with one leg gone will have a sensation perhaps that it is doubled under him, and he is sitting on it and it hurts. Or he has the sensation that a missing arm is stretching righty aloft with the fingers cramping.

The best reason surgeons can give is the fact that after the nerves are cut at the amputation point, their ends afterward grow a little. They grow into the scar, the end of the stump limb. The nerve tendril curls around seeking to make unions with other nerves in the lost stump. This theory is why the amputees have the phantom leg sensations.

Several surgical operations have been used. The new one was reported by Dr. Louis G. Herrmann, of the University of Cincinnati college of medicine. He ligates, or ties off, the severed nerve ends about an inch from the stump. This prevents the tendril from growing down into the scar. He said the results indicate that this ligation is of considerable importance in relieving occurrence of the phantom limb pain.

Canada Supplies Most British Wheat

Provided Nearly \$200,000,000 Of Britain's Purchases During 1946

LONDON.—Board of trade figures showed that although Canadian wheat shipments to the United Kingdom have been delayed recently by transport difficulties, the dominion supplied five-sixths of British purchases in the first 11 months of 1946.

Canada provided nearly \$200,000,000 (\$200,000,000) of Britain's total wheat purchases of \$312,500,000.

Canadian shipments in the first 11 months of this year totalled 107,000,000 bushels of wheat compared with 33,000,000 bushels in the first 11 months of 1938 and 117,000,000 in the same period of 1945.

Although shipments were down in later months this year, immense exports to Britain were arranged at the time of greatest need in the spring and early summer when Canada scraped the bottom of the barrel to send all possible wheat supplies across the Atlantic.

The value of United States shipments in the 11-month period was \$9,750,000, of Argentina shipments \$2,000,000.

DESIRE TO SERVE—PLUS ABILITY

STRICKEN MINER LAID TO REST

Funeral services for the late Giovanni Beltrame, who passed away suddenly while preparing to go on shift as a miner at Greenhill mine on Dec. 30, was held from the Blairmore funeral parlors Saturday last.

Mr. Beltrame was born in Italy on February 14, 1893 and came to the Crow's Nest Pass in 1910, first as a miner at Frank, later moving to Blairmore where he resided until the time of his death.

He was well known in Blairmore and always in the best of health. On the day of his death he left home and walked to the mine. While changing into his work clothes he suddenly collapsed.

The funeral cortege proceeded from the funeral parlors to the Union cemetery where graveside services were conducted by Rev. J. McKelvey of the Blairmore United church. Members of the Blairmore Elks' lodge and the Miners' Union attended in a body.

Palbearers were Peter Aschewer, Joe Aschewer, A. Pagnucco, A. Seizman, A. Decoux and U. Pagnucco.

Local and General Items

We know a woman who does not only get the last word, but the echo too.

C. M. Larbalstier is convalescing at home following an attack of illness about a week ago.

Mostyn Hadwell has returned to Calgary after a visit with his parents, Mr. and Mrs. T. Hadwell.

Born on Thursday, January 9th, at Perry's maternity home, a daughter to Mr. and Mrs. Ken Rees.

Born at Perry's maternity home in Blairmore on Friday, Jan. 9, to Mr. and Mrs. Joe Galvan, a daughter.

Taximan Frank Coccolone took delivery of a 1946 Chevrolet sedan from Crow's Nest Pass Motors last Friday and is now using it regularly in his Coleman taxi service.

Rev. and Mrs. J. Kirg left for their home in Enderby, BC, on Tuesday. They had spent the past two months with their son-in-law and daughter, Rev. and Mrs. J. McKelvey.

The sermon topic at the United church on Sunday evening will be "The urgency of Christian life." Members are reminded that the Communion service will be held at the close of the service.

Rehabilitation of tuberculous patients is made in Alberta by your contributions during the Christmas Seal sale. Alberta receipts are still short of the \$100,000 objective. Have you done your share?

Tuberculosis today is unquestionably a greater public health and economic problem in Canada than all other acute communicable diseases combined. Your Christmas Seal dollars are still needed to fight this disease.

The little boy's favorite uncle was being married the following Wednesday, and the boy was asking his mother about the wedding.

"Mother," he said, "the last three days they give them anything they want to eat, don't they?"

CHRISTMAS SEAL BOOKS TO BE KEPT OPEN

Calgary, Alta.,
January 5, 1947.

Blairmore Graphic,
Blairmore.

Alberta Christmas seal fund now eighty-five thousand seven hundred. Fourteen thousand ahead of same date last year. Keeping books open until hundred thousand objective realized.

We are most grateful for your help and confident we can count on Alberta to put us over the top.

Eric Connelly,
President Alberta
Tuberculosis Assoc.

FATHER AND SON RECEIVE BURNS

An unusual accident to a father and son, two well-known residents of Blairmore, Arthur Ennis, widely known in hockey circles as the Blairmore Bears' star hockey goalie of the early twenties, and his son Louie, star goalie of the present Blairmore hockey club, received bad burns while endeavoring to clean a plugged drain pipe in the kitchen sink of their home.

They were using a cleaning compound which they poured down the plugged pipe and while they were watching to see its effect an explosion occurred in the drain pipe which caused the compound to spout from the pipe and splash over the father and son, burning them severely about the arms, face and chest.

They were rushed to the Blairmore hospital to have their burns dressed. The father was permitted to return home but the son was detained in the hospital as he suffered a badly injured eye which will require careful attention for some time.

polish does a perfect job while the stove is hot

"Where were you on the night of the 17th?"

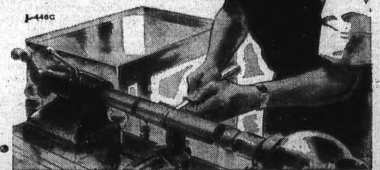

"I thought I told you to keep away from here," smiled Bob.

"My dear, I never see you any more, since you turned the cellar into a shop," protested Ethel. "If a cop were to ask me where you were on the night of the 17th I wouldn't even have to think. What a lovely tale, Bob! Who's that for?"

"It was to be a surprise for your birthday, but you see what you get for snooping. I've put in every free night for three weeks on it, but I've never been so happy in my life. For years I figured I couldn't afford the tools and the lathe and stuff. But when we got down to a budget that looked after our life insurance and other essentials first, I saw, I could indulge myself and do a bit of tinkering."

A man with adequate life insurance enjoys a freedom from worry that nothing else can give him. Premium payments call for systematic saving and budgeting. Once the future of his loved ones is secure, the head of a family can relax and derive pleasure from his hobbies.

Mr. Smith and the Legion...

The Legion is composed of Canada's best citizens. It exists to serve ALL Canadians.

Young Mr. Smith is going back to school. Young, only 27, yet pretty old for high school. It's going to take courage. But Mr. Smith proved his courage when he was Private Smith, a Bren-gunner. Young Mr. Smith is going to amount to something.

Behind him stand his Legion comrades. Proud of him and determined to see that he has every chance.
